

Work From Home Policy

Company Name	TCS (Tera Company Service)
Document Title	Work From Home Policy
Policy ID	TCS-HR-004
Version	2.1
Effective Date	01-Jun-2025
Last Updated	22-Jun-2026
Document Owner	Head of Human Resources
Department	Human Resources
Confidentiality	Internal Use Only

1. Purpose

This policy defines the eligibility, approval process, and rules governing remote and hybrid work arrangements for TCS employees, balancing flexibility with business and client needs.

2. Scope

Applies to all confirmed employees whose role does not require mandatory on-site presence (e.g., front-desk, IT infrastructure, or facilities staff).

3. Definitions

WFH	Work From Home — performing job duties from a location other than a TCS office.
Hybrid Schedule	A working pattern combining designated office days and WFH days.
Emergency WFH	Ad hoc, short-notice WFH approved for unplanned circumstances.

4. Who Can Work From Home / Eligibility

WFH is available to **confirmed employees** in roles that do not require physical presence for equipment, security clearance, or client-mandated on-site work. Employees on **probation are generally not eligible for**

routine WFH; exceptions may be granted by the Reporting Manager and HRBP jointly for approved Emergency WFH (see Onboarding Policy, TCS-HR-006, for related probation guidelines). Interns and contractors require explicit client and HR sign-off to work remotely.

5. Number of WFH Days

TCS follows a hybrid model: employees may work from home up to **2 days per week**, with a minimum of 3 days per week required in office, unless the employee's role is designated as fully remote in their offer letter. Teams may set a shared in-office day (commonly Tuesday and Thursday) to enable in-person collaboration, as decided by the department head.

6. Approval Process

Routine WFH days do not require case-by-case approval once a standing weekly WFH schedule has been agreed with the Reporting Manager and logged in the employee portal. Additional or ad hoc WFH days beyond the agreed schedule require the following process:

- 1 Submit a WFH request via the employee portal at least 1 working day in advance.
- 2 State the reason and confirm availability during Core Hours.
- 3 Reporting Manager approves or declines within the same working day.
- 4 Approved requests are automatically reflected in the Attendance module.

7. WFH Working Hours and Availability Requirements

Employees working from home must adhere to the same standard working hours defined in the Attendance and Working Hours Policy (TCS-HR-003), including presence during Core Hours (11:00 AM–4:00 PM IST). Employees must remain reachable via company chat and email throughout the working day and mark attendance using the digital check-in feature on the employee portal.

8. Internet Requirements

Employees must maintain a stable broadband internet connection with a minimum speed of 50 Mbps download / 10 Mbps upload while working from home. TCS provides an internet reimbursement of up to **■1,500** per month for employees on an approved regular WFH or hybrid schedule, as detailed in the Employee Benefits Policy (TCS-HR-005).

9. Meeting Requirements

Employees working remotely must keep their camera on for scheduled internal team meetings and all client-facing calls, unless otherwise agreed by the meeting organizer. A quiet, professional background (virtual background permitted) is required for client meetings.

10. Productivity Expectations

WFH employees are expected to meet the same productivity, quality, and delivery standards as employees working from office. Reporting Managers may request a brief daily or weekly status update for teams predominantly working remotely. Consistent unavailability during Core Hours or missed deliverables while on WFH may result in the WFH privilege being reviewed or revoked for the employee.

11. Restrictions on WFH

- WFH is not permitted from outside India without prior written approval from HR and the Legal & Compliance team, due to data residency and tax implications.
- Confidential or client data must not be accessed from public or shared computers; only company-issued laptops may be used, per the Laptop and IT Equipment Policy (TCS-HR-007).
- Employees must connect via company VPN when accessing internal systems from home, per the VPN and Remote Access Policy (TCS-HR-009).
- WFH may be restricted or suspended for specific projects at client request, communicated in advance by the Reporting Manager.

12. Emergency WFH

In situations such as sudden illness, family emergencies, extreme weather, or local transport disruptions, employees — including those on probation — may request **Emergency WFH** for the affected day(s) by informing their Reporting Manager as soon as possible, even after the working day has begun. Emergency WFH does not require the 1-day advance notice otherwise applicable and should be logged in the portal within 24 hours for record-keeping.

Employees who are new joiners still completing onboarding formalities (see Onboarding Policy, TCS-HR-006) should coordinate Emergency WFH with their HR induction point of contact, since certain onboarding activities such as laptop handover and ID card issuance require in-person presence.

13. Frequently Asked Questions

Q: How many days can I work from home?

A: Employees on a hybrid schedule can work from home up to 2 days per week, with a minimum of 3 days required in office, unless their role is designated fully remote.

Q: Do I need manager approval for WFH?

A: A standing weekly WFH schedule, once agreed with your Reporting Manager, does not need repeated approval. Ad hoc WFH days beyond that schedule require a request submitted at least 1 working day in advance and manager approval.

Q: Can I work from home while I am on probation?

A: Employees on probation are generally not eligible for routine WFH, per this policy and the Onboarding Policy (TCS-HR-006). Emergency WFH may be granted on a case-by-case basis by the Reporting Manager

and HRBP even during probation.

Q: Can I work from home from another country?

A: No, not without prior written approval from HR and Legal & Compliance, due to data residency and tax regulations.
